Node js

Typescript

Javascript

Work Experience

● React development

2022-2023

Having a solid foundation in JavaScript, I chose to delve into learning React and started developing using this framework. As a result, all of my projects now utilize React.

● Typesetter websites

2022-2023

"I specialize in crafting websites using CSS and HTML. My skills encompass designing vibrant and contemporary user interfaces.

● Frontend Development

2022 - 2023

I'm well-versed in a variety of technology stacks and frameworks, making me comfortable working on diverse projects.
