Work Experience

● With Frameworks

2022-2023

Having a solid foundation in JavaScript, I chose to delve into learning React, Vue and started developing using these frameworks. Now I have for about 10+ projects that was made by

● frameworks.

● Work in team

2022-2023

Since I started working like Frontend developer in different companies I started working with team and now I have for about 5+ project where I worked

● Backend

2022 - 2023

Now I can work with Api, Fetch and make websites using backend and can work with MongoDB and Firebase
